

GitHub - Pulling Updates

Getting the current version on GitHub master into your fork.

This is walk though of getting the current checked in version of a toolkit pulled from the master into the fork.

This is a set of notes that I wrote up to remind how to do this.

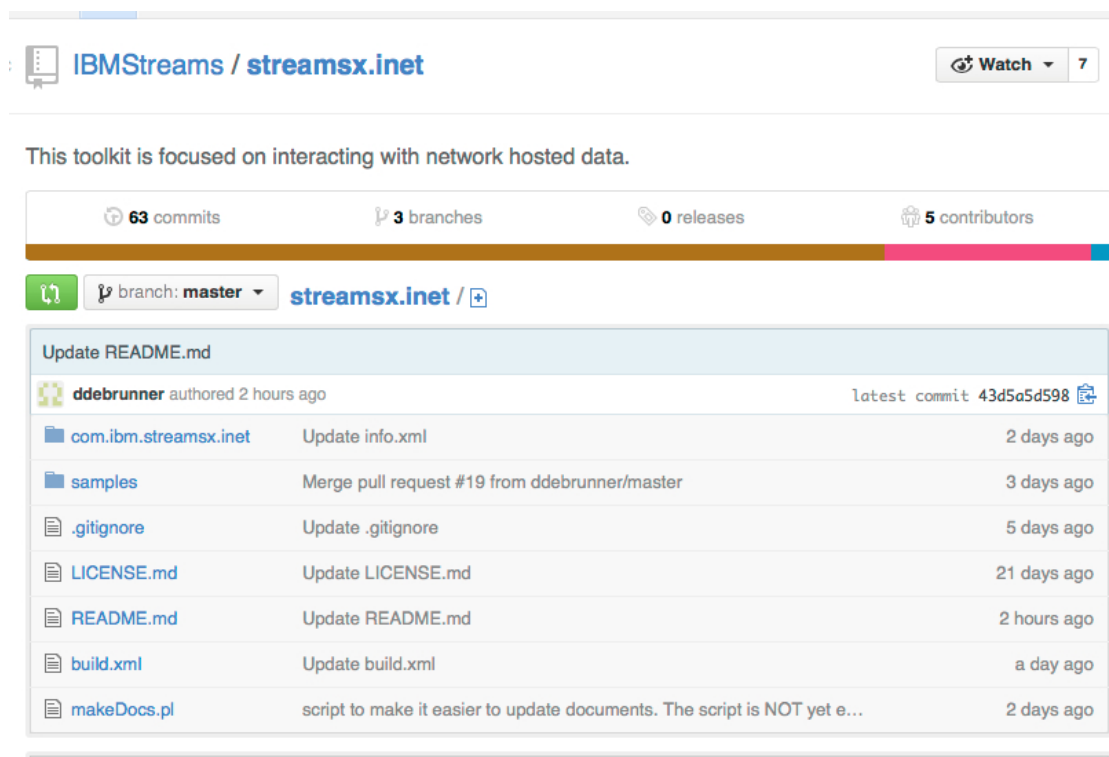

Current State:

Files and changes exist on GitHub in the master (IBMStreams/streamsx.inet) that I do not have in my current version of the code (siegenth/streamsx.inet)

I need to pull code :

IBMStreams/stream.inet -> siegenth/sreamssx.inet

This is a capture of the top level of the IBM/streams.inet project, notice the build.xml and makeDocs.pl.

IBMStreams / streamsx.inet

Watch 7

This toolkit is focused on interacting with network hosted data.

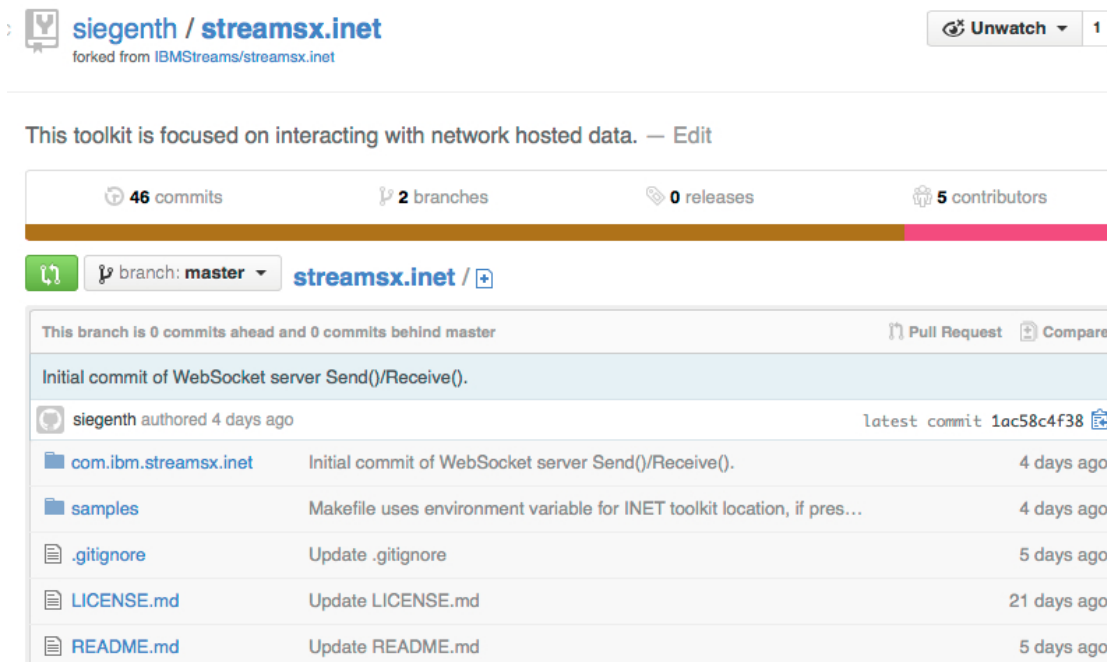

63 commits 3 branches 0 releases 5 contributors

branch: master streamsx.inet

Update README.md

com.ibm.streamsx.inet	Update info.xml	2 days ago
samples	Merge pull request #19 from ddebrunner/master	3 days ago
.gitignore	Update .gitignore	5 days ago
LICENSE.md	Update LICENSE.md	21 days ago
README.md	Update README.md	2 hours ago
build.xml	Update build.xml	a day ago
makeDocs.pl	script to make it easier to update documents. The script is NOT yet e...	2 days ago

These two files are not in my project, this is two many changes that I need to get.

Here is my forked version (notice the 'forked from IBMStreams/streamsx.inet at the top of the page) top level code view.

siegenth / **streamsx.inet**
forked from IBMStreams/streamsx.inet

This toolkit is focused on interacting with network hosted data. — Edit

46 commits 2 branches 0 releases 5 contributors

branch: master streamsx.inet / +

This branch is 0 commits ahead and 0 commits behind master Pull Request Compare

Initial commit of WebSocket server Send()/Receive().

siegenth authored 4 days ago latest commit 1ac58c4f38

File	Commit Message	Time Ago
com.ibm.streamsx.inet	Initial commit of WebSocket server Send()/Receive().	4 days ago
samples	Makefile uses environment variable for INET toolkit location, if pres...	4 days ago
.gitignore	Update .gitignore	5 days ago
LICENSE.md	Update LICENSE.md	21 days ago
README.md	Update README.md	5 days ago

Notice that this is missing build.xml and makeDocs.pl files.

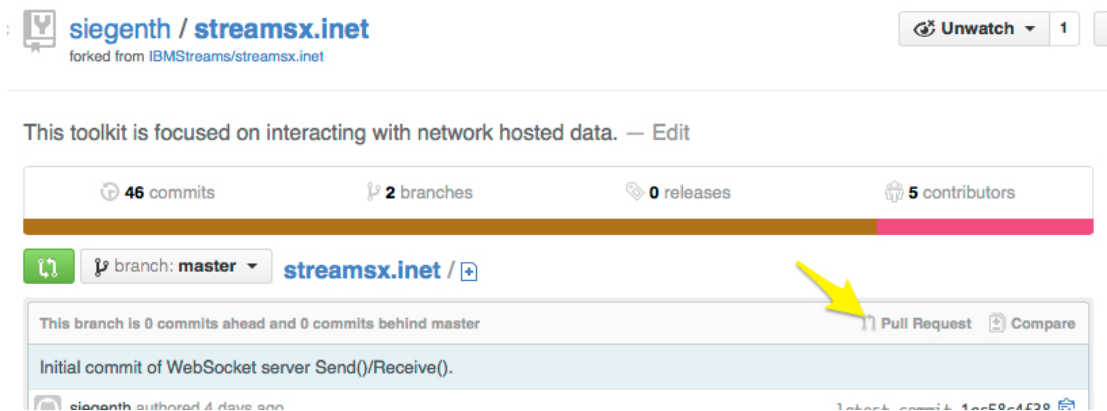

Pulling from the forked version.

Rule to remember :

base : where you think changes should be applied

head : what you would like applied

From my repository siegenth/streamsx.inet, select the 'Pull Request'

siegenth / **streamsx.inet**
forked from IBMStreams/streamsx.inet

This toolkit is focused on interacting with network hosted data. — Edit

46 commits 2 branches 0 releases 5 contributors

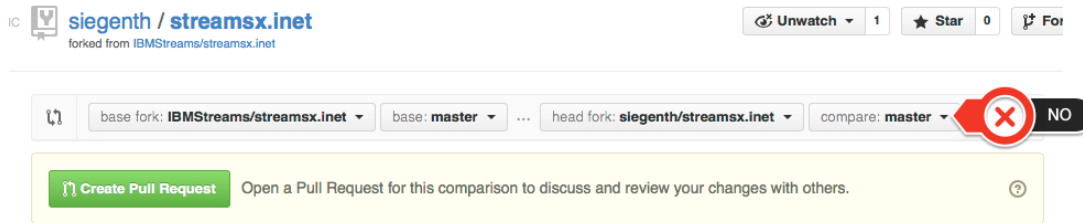

branch: master streamsx.inet / +

This branch is 0 commits ahead and 0 commits behind master Pull Request Compare

Initial commit of WebSocket server Send()/Receive().

siegenth authored 4 days ago latest commit 1ac58c4f38

Select the 'Edit', this will expand the box

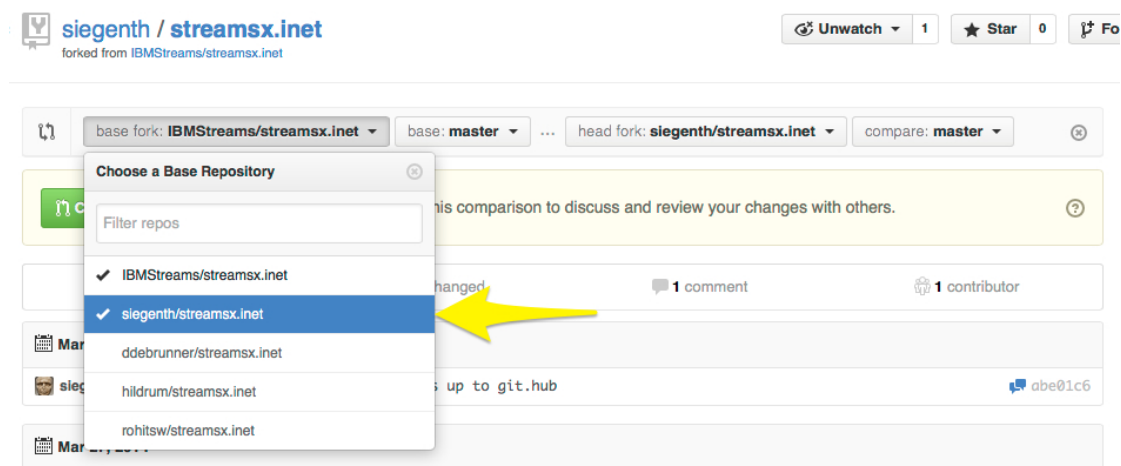

The line called out is describing the action :

siegenth/streams.inet -> IBMStreams/streamsx.inet

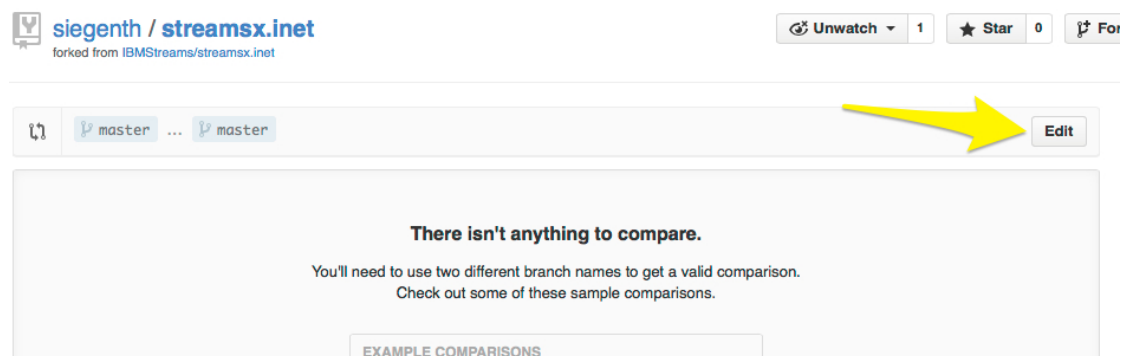

This is NOT the action I want to do, I want to do

IBMStreams/streamsx.inet -> siegenth/streams.inet

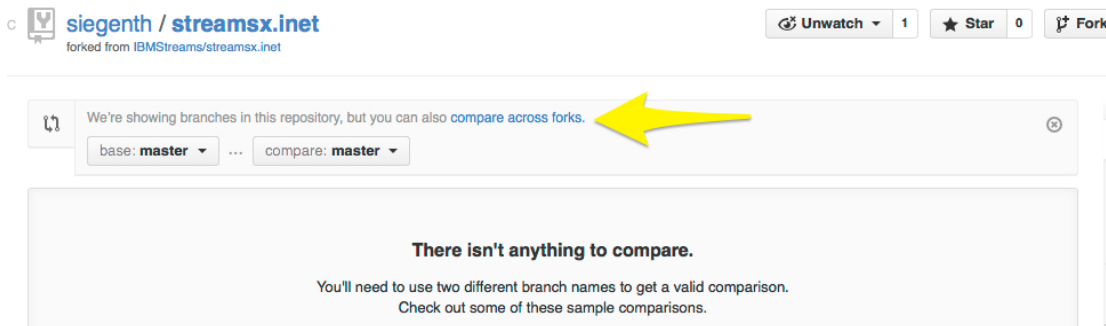

Need to change the base to siegenth/streams.inet, use left hand pulldown and 'Choose a Base Repository', siegenth/streamsx.inet.

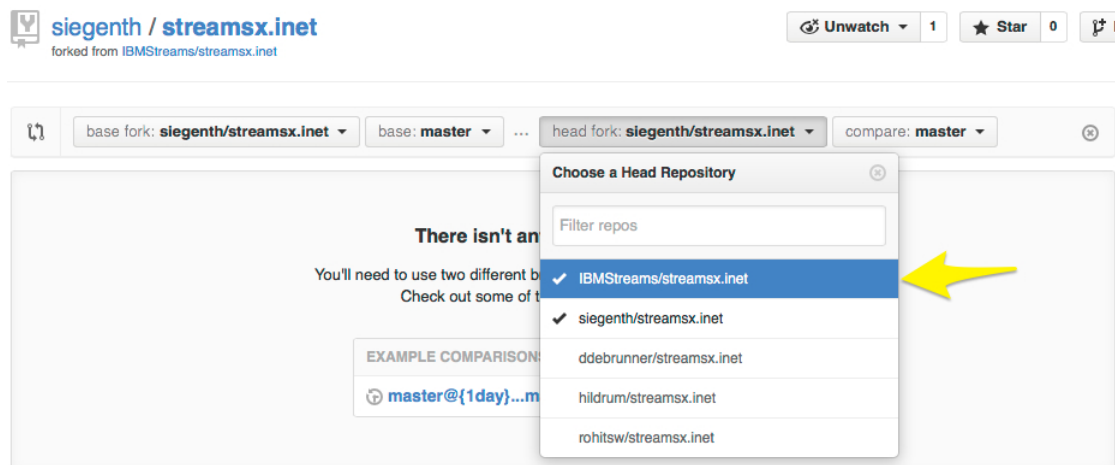

You'll be presented with this screen, 'select the 'Edit'.

Select the 'compare across forks' text.

Open the right hand 'head fork..' list and select the IBMStreams/streamsx.inet.

You will now be presented with all the changes that will be pulled from IBMStreams into sigenth, select the 'Create Pull Request'.

siegenth / streamsx.inet
forked from IBMStreams/streamsx.inet
